

Engraved chart, with soundings and two coastal profiles.

CUBA – SOUTH COAST

Carta Esferica que comprehende Desde el Rio Guaurabo Hasta Boca-Grande...

Author
DIRECCION HIDROGRAFICA

Publication date
1805.

Publisher

Publication place
Madrid,

Physical description
Engraved chart, with soundings and two coastal profiles.

Dimensions
920 by 590mm (36.25 by 23.25 inches).

Notes
Rare Spanish Admiralty chart of part of the south coast of Cuba.

The charts produced by the 'Direccion de Hydrografica' were detailed surveys not unlike the charts of the British Hydrographic Office, however official Spanish charts of this sort appear on the market much less frequently than their French and English counterparts, and even fewer have appeared to survive than contemporary American publications.
