

Engraved chart, with soundings and notes.

CUBA – CARDENAS BAY

Plano de la gran Bahia de Cardenas... Cuba

Author
DIRECCION HIDROGRAFICA

Publication date
1836.

Publisher

Publication place
Madrid,

Physical description
Engraved chart, with soundings and notes.

Dimensions
430 by 530mm (17 by 20.75 inches).

Notes
Rare Spanish Admiralty chart of Cardenas Bay, Cuba.

The charts produced by the 'Direccion de Hydrografica' were detailed surveys not unlike the charts of the British Hydrographic Office, however official Spanish charts of this sort appear on the market much less frequently than their French and English counterparts, and even fewer have appeared to survive than contemporary American publications.
