Notes
Christopher and John Greenwood state in the title that the plan was made from an "Actual Survey", which had taken three years. Plans at the time were often copied from older surveys, or re-issued with minor updating; so conducting a new survey was indeed something to boast about. The plan, which was finely engraved by James and Josiah Neele, is stylistically similar to the Ordnance Survey

maps of the time, although it was engraved on a much larger scale of eight inches to the mile, compared to the OS standard of one inch to the mile. It includes detailed depictions of streets, houses, public buildings, parks, squares, woods, plantations, rivers, hills, windmills; also the marking of the boundaries of the City of London, Westminster, Southwark, Rules of the King's Bench & Fleet Prison, Clink Liberty, counties and parishes. Below the plan is a dedication to George IV, which is flanked by views of Westminster Abbey and St Paul's Cathedral.

Fifth state, date altered to 1840.

Scale: 8 inches to 1 statute mile.
